A
GO−BP: higher in adult
multicellular organismal process
signaling
cell communication
developmental process
signal transduction
anatomical structure development
multicellular organism development
regulation of multicellular organismal process
cell population proliferation
cell adhesion
cell activation
regulation of cell adhesion

B
GO−BP: higher in infant
small molecule metabolic process
transmembrane transport
oxoacid metabolic process
organic acid metabolic process
carboxylic acid metabolic process
monoatomic ion transport
metal ion transport
organic anion transport
organic acid transport
carboxylic acid transport
organic hydroxy compound transport
alpha−amino acid metabolic process
